

Christmas in the Cathedral District 2020 The Lighting of the District A Gift to the Community of Jacksonville

Imagine the central core of our beloved Cathedral District, with our five historic churches, shining as a “Beacon of Light from the Hill”...the highest point in Jacksonville...the Cathedral District. This beacon of Light can be seen from all entries into the city! Not only will the churches all be highlighted, but many of the Landmark buildings. Your unique “driving tour” of the District includes over 100 brightly lit trees around a seven-block area that guide you through this magical tour through the magnificent District. This amazing gift to the community will be every evening during the whole month of December from 5:30 to 9:30 PM. – Featuring one special evening of choral and instrumental music that you will be able to enjoy from your car as you take the drive through the Cathedral District during the full season of Christmas.

The lighting of the District begins with the traditional evening event to light the City Tree. That night you will experience choral music and beautiful instrumental music playing as you drive through the Cathedral District. Don't miss the live Nativity Scene! The best part is you can slowly see it from the safety of your car! You can see it on your way home from work, from the Acosta, Main, Hart and Mathews Bridges or on an evening drive with your family for an annual excursion to “ooh and ahh ...look at the lights!”
